

EUROPEAN UNION OF WOMEN

Poitiers November

2014

ECONOMICS and EMPLOYMENT COMMISSION

RESOLUTION

The youth unemployment is one of the most important and urgent challenges in EU. Politics, companies and unions need to cooperate . In countries with well functioning systems of apprenticeships there is a low rate and ratio of youth unemployment. Thus, in July 2013 the European Alliance for Apprenticeships was announced to stimulate this system across Europe. The EUW wants to enforce the need of apprenticeships schemes in all EU countries to make young people employable and education must be aligned with needed skills on the labour market . EUW want to stimulate political initiatives on both national, regional and local level.
